## REDUCED RATES.

The Price of Round Trip Tickets to the State Fair.

The Silver State comments:

C. H. Stoddard, Secretary of the State Agricultural Society, requests the Silver State to inform its readers that he has obtained special rates of fare from the Central Pacific Railroad Company to the State Fair at Reno and return as follows:

Wells, \$24.75; Elko, \$20.95; Palisade, \$18.80; Winnemucca, \$11.40; Lovelocks, \$6.50; Halleck, \$22.55; Gardin, \$19.40; Battle Mountain, \$15.35; Rye Patch, \$7.95; Wadsworth, \$2.30. These rates are good for persons wishing to attend the State Fair to be held at Reno, Sept. 21st to Oct. 1st inclusive.

These rates are less than the regular fare from the points mentioned to Reno, and they ought to insure a large attendance from this and other counties at the State Fair. No reasonable person can complain of the rate—\$11.40 for a round trip ticket from Winnemucca to Reno and return, and Lovelocks people ought to attend in force, as round trip tickets cost them only \$6.50.

**THE BEAUMONT COMEDY CO.**—"Harbor Lights," one of the greatest successes in the way of sensational melodramas, being replete with magnificent scenery, strong dramatic situations, with pathos, sentiment and comicallities combined, and which had a run of over two years in London, and was also eminently successful in Boston, New York and San Francisco, was produced at the Oakland Theatre last Monday night, by the Beaumont Comedy Co., and secured an immediate success. The house was crowded, and the audience testified their appreciation by the most unlimited applause. The company in its entirety, is one of the best that has ever been organized for a Slope tour. The mechanical effects are grand. The revolving scene in the fourth act, fairly electrified the people, who applauded it to the echo. This company play at the Opera House next Monday evening, for one night only, bringing the original scenery and mechanical effects, as used at the Oakland, and Alcazar theaters San Francisco.

**LO, THE POOR INDIAN RANGER.**—The White Pine News says: "Dave McQuitty, on his Ely ranch, has the finest barley crop in Steptoe valley. An old Indian, who has a patch close to Dave's, but not near so good, noticing that Dave frequently walked over his field with his cane, went to him a couple of weeks ago, and entreated him to get his cane and walk over his patch. The Indian now says his crop will beat Dave's, but whether the magic lies in Dave's boots or his cane is not known."

The Enterprise adds: Many will laugh at this notion that took possession of the old Indian's "untutored mind," but when he sees white men walking about over the country with a forked stick, and digging for gold and silver where said stick worketh aright, is the old savage much to be grinned at for wishing to walk over his little field with a crop-compelling cane?

**WILL ASSIST.**—Mr. Benson, in conversation with the Journal reporter yesterday, said: "Those who can make arrangements for the accommodation of visitors during the Fair should do so without any hesitation. If they do not do so, many of those who come here to witness the exhibition will suffer great inconvenience." He continued, saying: "I have but little room to spare, but I will make arrangements by which I can take care of a few more." This is the proper spirit to manifest, and if all those who can contribute to the welfare of our guests, will do so, everything will pass off harmoniously. Do not be strictly governed by the profit to be reaped, but do it more particularly as a courtesy to our visiting friends. Don't let Reno's hospitality be criticised.

**A PIONEER'S SUICIDE.**—Frederick Reed, a resident of Grass Valley since 1852, was Tuesday morning found dead in bed with a revolver lying by his side, from which he had fired a bullet into his forehead, causing instant death. He has for two years past been sick with tumors on his chest. Being without funds he was, on the advice of his attending physician, to have gone to the County Hospital Tuesday. He was unmarried, aged about 60, a native of London, and has two married sisters in San Francisco and a brother in Shasta.

The Con. Virginia declared a dividend of 50 cents yesterday.

## ARTESIAN WELLS.

The following communication on the subject of artesian wells, will, no doubt, be read with interest by the people of Nevada:

There is no subject more deserving the intelligent attention of the people of Nevada than the subject of "Artesian Wells." The great refrigerator lying west of the State in the form of the Sierra Nevada Mountains, has been, and ever will be a condenser of the moisture freighted inland by the winds and in the clouds from the Pacific Ocean. This western section of the continent's vertebra will continue a storer of moisture in its reservoirs of ice and snow to the exclusion of all that portion of the State east of the eastern slope or declivity of the mountain range.

The equilibrium of the forces of nature provided and necessary for a copious rainfall within the State, is so interfered with by these mountains that no dependence upon a more bountiful supply in the future can be placed in the causes now at work tending to that end, such as planting trees, cultivating and irrigating the soil. These well established facts in natural law, should call forth the best efforts and energies of the people and of the State in providing such means as we possess for overcoming these natural environments of our State, the means necessary are at hand and I hope within our reach in a thorough and properly regulated system of irrigation by surface water and water from artesian wells. The whole of our State is within the radius or belt affected by the conditions above mentioned, it would, therefore, properly be the work of the State to provide the water for proper irrigation. Systems of artesian wells can be provided for the irrigation of all portions of the State capable of cultivation, where surface water cannot be had for that purpose. I am well aware, with our limited knowledge of the geology of the State, the trend of its bed-rock and the depths of super-incumbent detritus matter, that no reliable data could now be given of the probable depths in many parts of the State necessary to secure a flow of water from wells, but one condition necessary for a ready and comparative estimate of cost, depth, availability and utility of artesian water, is ever present in the mountain ranges of the State. In order to illustrate the possibility of an artesian well system, I will take for the purpose the mountain range south of and parallel to the Humboldt river. In that portion of the State there is no perennial streams south of and flowing to the river, from Humboldt Lake to Gravelly Ford, an approximate distance of one hundred and seventy miles, and there is but very little, if any, water now flowing into the river from the north side, between the points named; yet the river maintains its volume of water to the lake. In no other way could the river retain its volume of water but by under drainage from the mountains over and through the bed-rock of the country. If these subterranean streams were tapped by wells the waters now passing off over the bed-rock would be brought to the surface at small cost per well and lands irrigated, the productive capacity of which has not yet entered the mind of most of our people. For the purpose of developing a system of wells along the line indicated, a proper knowledge of the subject is necessary for intelligent work, in order that money may not be improperly expended. To that end it would be necessary whenever and wherever it should be concluded to sink or bore a well, to ascertain before doing so the trend and dip of the bed-rock, the probable depth of detritus matter over the bed-rock; also the capacity of the mountain or mountains at whose base the intended well is to be bored to furnish water in quantity. These matters are easy of ascertainment by experienced geologists and engineers.

In all parts of the world hitherto prospected, the insight which observation and study gives the savant, has enabled him to point out with almost perfect precision the course of the subterranean waters. At Calais, engineers, after a full examination, bored through the soil and upper strata, for the purpose of tapping the subterranean waters flowing under the Straits of Dover from the mountains in England. A stream of water was out, and a continuous flow from England obtained. In the Algerian Sahara the engineers mark before hand in the middle of that barren and arid desert the places where abundant springs should gush out, and subsequent efforts to secure water by boring, has established the almost unerring certainty of getting water according to data made at the time of location. Thus the Sahara is being transformed, and its shifting sands that have entombed the caravans of India and Asia from remotest ages are stilled, and the habitation of man and life replace the long reign of desolation and death elsewhere than on Sahara. The broken rock strata of Nevada, because of volcanic action, might in some measure deceive in some places and misapprehensions result, but no material inconvenience to the development of any general system of wells could follow from broken rock strata.

W. H. H. Scott, who had his leg broken in Virginia a few days ago, was brought to Reno Wednesday, and taken to the residence of his sister, Mrs. C. A. Richardson.

Those who build homes on the Avenue, in Powning's Addition, will be especially favored. They can go down to the river, any morning, and catch fish for breakfast.

Reno can offer better inducements for those who come West to build, than any other town on the Coast. Cheap property, a glorious climate and the best school system in the West.

Twenty additional stamps will be dropping in the California mill on ore from the Con. Cal. & Va. mine before the close of the current week. This will increase the daily output to 80 tons above the present average.

Get your beds ready for the Fair.

The Central Pacific pay car has gone West.

Twelve cars of wood passed east yesterday.

There was a heavy frost yesterday morning.

Twenty cars of time goods went west yesterday.

The Virginia public schools opened yesterday.

The reduced rates went into effect yesterday.

Some rich ore is being found west of the Ophir grade.

The pans are being placed in position at the Ophir mill.

A telephone office is to be established at Steamboat Springs.

Aurora is improving and the old time prosperity is looked for.

Nevada City is feeling the effect of the California land boom.

Forty men are employed on the Chollar side track in Virginia.

The Garfield mines are all showing better and more ore than ever.

Truckee will ultimately be the ice depot for California and Nevada.

The game law is out, and an inquest boom can be looked for at any time.

G. D. Hines, correspondent of Resources of California, has gone below.

Several of the Marietta chlorides are getting ready to make shipments of ore.

A broad belt of mineralized quartz is being explored on the 472 level in the Utah.

General Miles had his leg broken at Santa Monica by the upsetting of a buggy.

A Virginia boy broke his arm near the elbow on Tuesday while playing "leap frog."

Tourists at Lake Tahoe are full of climate and are regaling themselves before log fires.

Crosman and McDonald are still taking good ore from the Big Indian mine in Esmeralda.

An important ore development is said to have been made recently in the Navajo mine, Tuscarora.

The report that Attorney Stephens would leave the Comstock for California is without foundation.

Our climate, warm springs and mountain resorts, will soon make Nevada the greatest sanitarium in the world.

Two new flags have been received by Naaby, one for the Reno Lodge No. 13, P. & A. M. and one for Reno Chapter No. 7, R. A. M.

A Mexican stole two horses from Indians in Esmeralda county but was overtaken by the reds and compelled to deliver up the horses.

Several parties who have disposed of their property in Sacramento are talking of coming to Reno to invest in real estate. A good move.

Dave Harland and brother made a visit to Peavine Wednesday and brought down some fine specimens of ore from the Paymaster mine.

The Chicago Mining and Reduction Company, Ophir canyon, Nye county, have made a big strike in ruby silver. It is almost pure metal.

The relief fund for the sufferers in the Gould and Curry disaster has been distributed, with the exception of the donations from Butte, Montana.

The burnt district at Colfax is being rebuilt in better style than before. All of the buildings and awnings will be covered with corrugated iron.

Mono County has a crop of horse thieves. The citizens propose to gather them and hang them out to dry. So says the Walker Lake Bulletin.

The latest advices from Governor Bartlett's bedside are anything but reassuring. He seems to have failed rapidly during the past few hours.

The Silver State says Clarie Laws, a daughter of J. G. Laws, has gone to Reno to attend school. Josh Laws' daughter is too young to go to school.

The County Commissioners' claim there is an ordinance prohibiting the burning of paper and other rubbish in the streets and they intend to enforce it. Good enough.

W. H. H. Scott, who had his leg broken in Virginia a few days ago, was brought to Reno Wednesday, and taken to the residence of his sister, Mrs. C. A. Richardson.

Those who build homes on the Avenue, in Powning's Addition, will be especially favored. They can go down to the river, any morning, and catch fish for breakfast.

## ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-aw f-1v

## COUNTY EXHIBITS.

\$100 FOR THE BEST, \$50 TO THE SECOND. The State Agricultural Society is laboring to bring out Nevada's resources. In order to have a proper exhibit from the various counties it offers \$100 for the best and \$50 for the second best exhibit by counties. Washoe county is exempted from competing because it is the "local" home of the Society. The articles grouped together by any county, a whole, will be excluded from competing singly, and may be entered in that manner, for the various classifications printed in the catalogue.

Trials of Speed to be conducted under the auspices of the Directors of the State Agricultural Society.

THE STATE AGRICULTURAL SOCIETY WAS ESTABLISHED IN accordance with an Act of the Legislature of the State of Nevada, entitled "An Act to provide for the management and control of the State Agricultural Society of the State," approved March 7, 1885.

## REMARKS AND CONDITIONS.

Nominations to stakes must be made to the Secretary on or before the first day of August, 1887. Entries for the purses must be made for Monday's races on the Saturday preceding; for Wednesday's races, on Monday, and for Friday's races, on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 P. M. Horses entered in purses can only be drawn by consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races. All horses entered for State purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to day of race.

Entries to all trotting races will close September 1st, with the Secretary. Five or more to enter and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a proportionate amount of the purse. Entrance fee, ten per cent. on purse, to accompany nomination.

National Trotting Association Rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walkover will be entitled only to the entrance money paid in. When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 65% to the first and 35% to the second.

In all the foregoing stakes the declarations are void unless accompanied by the money. Please observe that, in the above stakes, declarations are permitted in a small forfeit.

No one but ladies of the highest respectability will be allowed to compete for prizes. Ladies wishing to compete for prizes will please send name to Secretary, indorsed by two members of the Society.

On Thursday, Sept. 22d, Monday, Sept. 26th and Thursday, Sept. 29th, the novelty of an Indian pony race will be provided, and the amusing sight of twenty or thirty noble red men of the forest, mounted on the wildest and most unmanageable cayuses imaginable, galloping around the track at break-neck speed, will, as they say at the circus, be alone worth the price of admission.

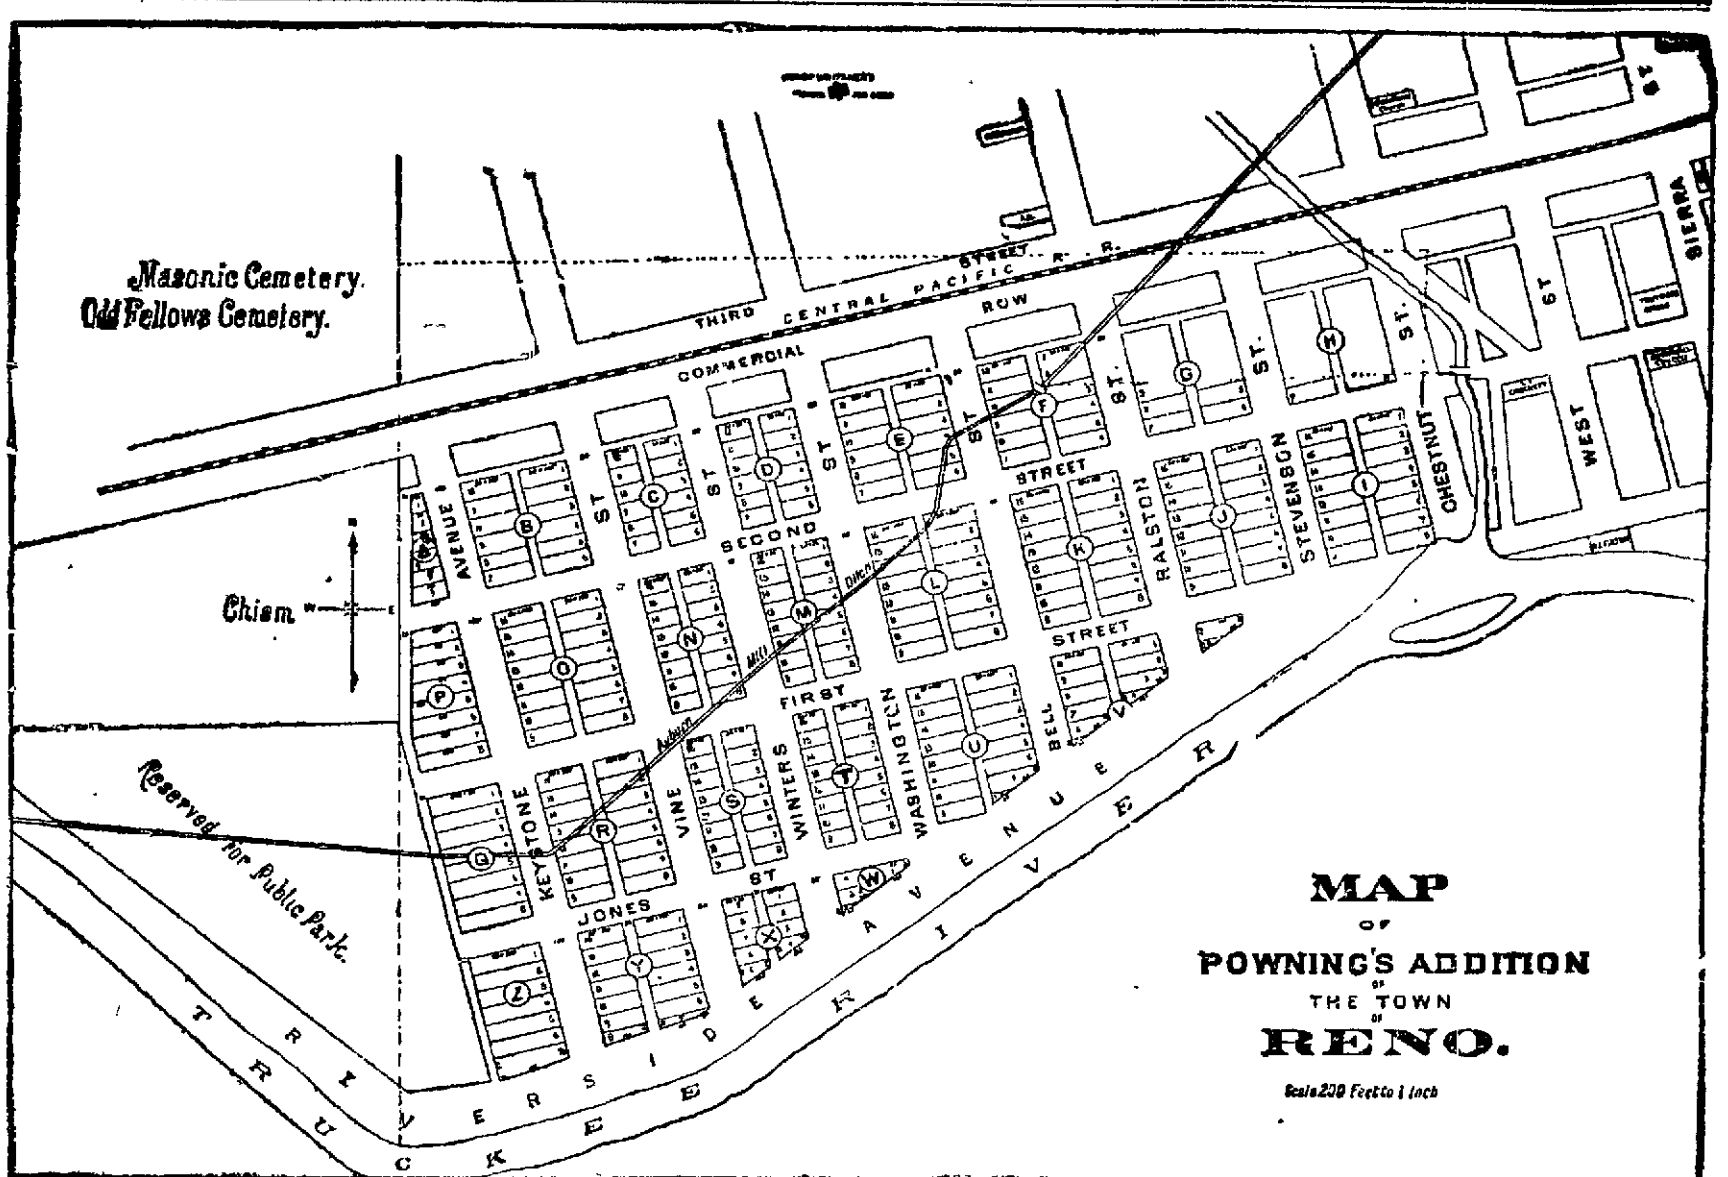

## CLYDESDALE MEDALS.

The American Clydesdale Association will give a valuable medal, of suitable design, for the best recorded Clydesdale stallion, and a similar medal for the best recorded Clydesdale mare bred in Nevada, and exhibited at the State Fair of 1887.

Arrangements have been made for a series of balloon ascensions during the Fair, alike novel and exciting. Ascensions will be made daily from the race-track.

## BICYCLE RACES.

Two or three bicycle races will take place between the fastest wheelmen in the State, and ten contestants are wanted upon

# 250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## PARKER'S MAP OF NEVADA.

## PARKER'S NEW MAP OF NEVADA.

—THIS NEW AND BEAUTIFUL—

## MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,  
Reno, Nevada.
